

ENGINEERING & CONSTRUCTION

### Construction Engineer Position Overview:

Infinite Energy Construction seeks a Construction Engineer at our North Charleston, SC office. The Construction Engineer position is well-suited to a recent graduate with an engineering or architectural degree that is interested in the construction management discipline and design-build military construction. Construction engineers will gain exposure and responsibility for the development and management of multiple construction projects, with various trades and subcontractors, on Joint Base Charleston. Projects will vary in size (\$2,500 - \$1,000,000), scope, and complexity. Exposure to the scope development and design process will be gained and project development and management principles will be applied. The ideal candidate for this Construction Engineer Position must have an undergraduate degree in any engineering discipline or architectural degree, strong problem-solving skills, the ability to focus and learn processes and procedures in observation and application, and the ability to build and develop relationships with multiple stakeholders.

IEC is a Kansas City based General Contractor and Engineering firm with a national footprint, and a focus on mission critical (federal and utility) markets. Our mission is to build to a higher standard through a focus on performance, safety, and an understanding of our clients' mission and needs. We are a growing company looking for motivated, self-starting individuals to join our team. We offer competitive pay and a robust benefits package including health, dental, and vision insurance, 401k with company contribution, and paid leave.

Candidates must complete an IEC Employment Application to be considered for this position. To download an application and for more information on the Construction Engineer and other available positions, please visit <https://infiniteenergyconstruction.com/careers/>. Resumes without a completed application will not be considered.
